

Here we have another great submission from the guys over at Fistful Of Books, I say guys as Fistful of Books is Simon Robinson. So this is how own book. And it is covering what was a very important moment in the history of the UK. The vote by Scotland on gaining independence.

This lovely little book chronicles both side of the people, showing their passion and sometimes anger towards one another. this was a tense moment for many in the UK. I even had Japanese people here asking me my opinion on it, so it was pretty major news.

It is really nice to see both sides of this and how the people came together to present their points of view, share their beliefs and make themselves heard. This was really a turning point in the history of the UK, no matter the outcome. And this book takes you on a journey through those emotional days with a well edited storyline.

Right up to the final moments you see the highs and lows run through the work. With the final pages being for some a party, for others a time to drown their sorrows.

You can grab yourself a copy of this one over at [Fistful of books](#)
